

LTH Exit Report - Length of Stay

Service Providers
Wilder: Long-term homeless program-LTH(1412)

Report Period: 07/01/2007 to 11/8/07
Report Run Date: 11/12/07

Data Check - Length of Stay

Only Household Heads and Singles are shown. If the client is not part of a household, the "ID" field and the "Client ID" field will be the same. Check the Entry Date and Exit date. The columns on the right show which 'length of stay' category each client falls into.

The lengths of stay are divided into categories using the criteria in the following table:

Less than 1 Month	Less than 30 Days
At least 1, but less than 3 Months	At least 30 days; not more than 91 days
At least 3, but less than 6 Months	At least 92 days; not more than 182 days
At least 6, but less than 12 Months	At least 183 days; not more than 364 days
At least 1 year, but less than 2 Years	At least 365 days; not more than 730 days
At least 2 years, but less than 3 years	At least 731 days; not more than 1095 days
3 Years or More	More than 1095 days

LTH Exit Report - Destination

Service Provider (s)

Report Period: 07/01/2007 to 11/8/2007

Report Run Date: 11/12/2007

Destination

The table below shows all clients that have exited the selected program during the report period. It is ordered by Household. If a client is not part of a household, the "ID" and the "Client ID" will be the same number.

The total at the bottom of this table shows the number of households (including single individuals who are not part of a household). If this number is different from the total at the bottom of the counting table (below the data checking table), check to make sure that those listed as 'Head of Household' make sense - there should be only 1 head per household and each household should have a head. The counting tables are only counting Household Heads and singles.

In all the data checking tables, if a client is listed, but the destination, tenure or subsidy is blank, that means that this information was not recorded for that client.
